

Seeing group activity better with views and panels

Install **Panel and Views** module if not installed in drupal

Enable **Views content panes** , **views**, **views UI**, **Page manager** ,panel modules from admin.

Open **Structure > Pages**

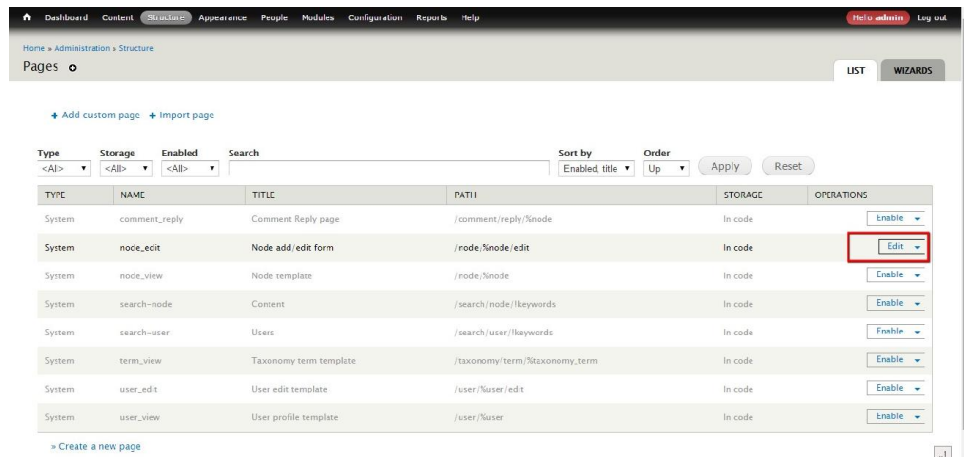

Enable **node_view**

The screenshot shows the 'Pages' administration page in Drupal 7. The table lists various system pages. The 'node_view' row is highlighted with a red box. The 'Enable' button in the 'Operations' column for 'node_view' is also highlighted with a red box.

TYPE	NAME	TITLE	PATH	STORAGE	OPERATIONS
System	comment_reply	Comment Reply page	/comment/reply/%node	In code	Enable
System	node_edit	Node add/edit form	/node/%node/edit	In code	Enable
System	node_view	Node template	/node/%node	In code	Enable
System	search-node	Content	/search/node/keywords	In code	Enable
System	search-user	Users	/search/user/keywords	In code	Enable
System	term_view	Taxonomy term template	/taxonomy/term/%taxonomy_term	In code	Enable
System	user_edit	User edit template	/user/user/edit	In code	Enable
System	user_view	User profile template	/user/user	In code	Enable

Edit **node_view**

The screenshot shows the 'Pages' administration page in Drupal 7. The 'Edit' button in the 'Operations' column for the 'node_view' row is highlighted with a red box.

TYPE	NAME	TITLE	PATH	STORAGE	OPERATIONS
System	comment_reply	Comment Reply page	/comment/reply/%node	In code	Enable
System	node_edit	Node add/edit form	/node/%node/edit	In code	Edit
System	node_view	Node template	/node/%node	In code	Enable
System	search-node	Content	/search/node/keywords	In code	Enable
System	search-user	Users	/search/user/keywords	In code	Enable
System	term_view	Taxonomy term template	/taxonomy/term/%taxonomy_term	In code	Enable
System	user_edit	User edit template	/user/user/edit	In code	Enable
System	user_view	User profile template	/user/user	In code	Enable

Node add/edit form

Summary	Summary
Summary	Get a summary of the information about this page.
Variables	When enabled, this overrides the default Drupal behavior for adding or editing nodes at <code>node/{node}/edit</code> and <code>node/{add}/{node}/type</code> . If you add variants, you may use selection criteria such as node type or language or user access to provide different edit forms for nodes. If no variant is selected, the default Drupal node edit will be used.
No variants	This page has no variants and thus no output of its own.
	Add a new variant

Node add/edit form

Summary	Configure						
Summary	Configure a newly created variant prior to actually adding it to the page.						
Variables							
No variants							
	Before this variant can be added, it must be configured. When you are finished, click "Create variant" at the end of this wizard to add this to your page.						
	Selection rules » Contexts » Panel settings						
	If there is more than one variant on a page, when the page is visited each variant is given an opportunity to be displayed. Starting from the first variant and working to the last, each one tests to see if its selection rules will pass. The first variant that meets its criteria (as specified below) will be used.						
	<table border="1"> <thead> <tr> <th>TITLE</th> <th>DESCRIPTION</th> </tr> </thead> <tbody> <tr> <td>No criteria selected, this test will pass.</td> <td></td> </tr> <tr> <td>Node type</td> <td>Add</td> </tr> </tbody> </table>	TITLE	DESCRIPTION	No criteria selected, this test will pass.		Node type	Add
TITLE	DESCRIPTION						
No criteria selected, this test will pass.							
Node type	Add						
	<input checked="" type="radio"/> All criteria must pass.						
	<input type="radio"/> Only one criteria must pass.						
	Continue

Click on Add button.

Save

Click on Continue.

Click on **Add relationship**

No need to chngae any field. Click Finish.

The screenshot shows the 'Add relationship' form titled 'Add relationship "OG membership from a group node and user"'. The form includes a 'Node' dropdown set to 'Node being edited', an 'Identifier' text field with the value 'OG membership from a group node and user', and a 'Keyword' text field with the value 'og_membership'. The 'Finish' button is highlighted with a red box. The form also has a 'Cancel' button and a 'Close window' button. The top navigation bar includes links for Dashboard, Content, Appearance, People, Modules, Configuration, Reports, and Help. The right sidebar shows a list of relationships with a 'changed' status indicator.

Click continue.

The screenshot shows the 'Continue' button highlighted with a red box. The form is titled 'OG membership from a group node and user *'. It includes a 'Book parent' dropdown and an 'Add relationship' button. Below the form is a 'SUMMARY OF CONTEXTS' section. The 'Continue' button is highlighted with a red box. The bottom of the form has a 'Back' button and a 'Continue' button. A yellow warning message at the bottom states: 'You have unsaved changes to this page. You must select Save to write them to the database, or Cancel to discard these changes. Please note that: if you have changed any form, you must submit that form before saving.'

Select "Builders"

The screenshot shows the 'Configure' form titled 'Configure'. The form includes a 'Category' dropdown set to 'Builders', a 'Builders' section with a 'Flexible' option, and a 'Continue' button highlighted with a red box. The form also has a 'Back' button and a 'Continue' button. The top navigation bar includes links for Dashboard, Content, Appearance, People, Modules, Configuration, Reports, and Help. The right sidebar shows a list of relationships with a 'changed' status indicator. A yellow warning message at the bottom states: 'You have unsaved changes to this page. You must select Save to write them to the database, or Cancel to discard these changes. Please note that: if you have changed any form, you must submit that form before saving.'

Changed

Configure a newly created variant prior to actually adding it to the page.

Selection rules » Contexts » Choose layout » Panel settings » Panel content

Administrative title

Campaigns Office

Administrative title of this variant.

☐ Disable Unrpal blocks/regions

Check this to have the page disable all regions displayed in the theme. Note that some themes support this setting better than others. If in doubt, try with stock themes to see.

Remove body CSS classes

The CSS classes to remove from the body element of this page. Separated by a space. For example: no-sidebars one-sidebar sidebar-first sidebar-second two-sidebars.

Add body CSS classes

The CSS classes to add to the body element of this page. Separated by a space. For example: no-sidebars one-sidebar sidebar-first sidebar-second two-sidebars.

Renderer

☒ Standard

Renders a panel normally. This is the most common option.

☐ In-Place Editor

Allows privileged users to update and rearrange the content while viewing this panel.

CSS ID

The CSS ID to apply to this page

CSS code

Enter well-formed CSS code here; this code will be embedded into the page, and should only be used for minor adjustments; it is usually better to try to put CSS for the page into the theme if possible. This CSS will be filtered for safety so some CSS may not work.

BackContinue

You have unsaved changes to this page. You must select Save to write them to the database, or Cancel to discard these changes. Please note that if you have changed any form, you must submit that form before saving.

SaveCancel

Click continue.
